Endorsement of SCA 4.1

1 Endorsement Statement

The Wireless Innovation Forum endorses the Joint Tactical Networking Center (JTNC) SCA 4.1 Specification [1], including appendices, as a preferred software architecture for software defined radios. This endorsement is non-exclusive and the Wireless Innovation Forum may endorse additional architectures for application areas where the SCA 4.1 is not an ideal match. This endorsement does not imply deprecation of the endorsement of the SCA 2.2.2 [2], that remains valid.

The Wireless Innovation Forum recognizes that additional resources are needed by SCA 4.1 adopters and intends to provide support material, such as a report of SCA 2.2.2 to SCA 4.1 Migration Considerations, defining domain specific profiles and SCA 4.1 Test and Evaluation Criteria.
