

Wireless Innovation Forum

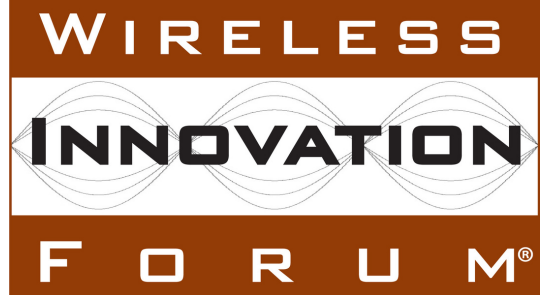

WInnForum members are dedicated to advancing technologies supporting the innovative utilization of spectrum and the development of wireless communications systems, including essential or critical communications systems. Through **events, committee projects** and **initiatives** the Forum acts as the **premier venue** for its members to collaborate to achieve these objectives, providing opportunities to network with customers, partners and competitors, educate decision makers, develop and expand markets and advance relevant technologies.

International member organizations include:

- radio manufacturers along with their partners and suppliers,
- acquisition authorities,
- service providers,
- operators,
- standards bodies,
- researchers, and
- regulatory agencies.

As you can see, the Forum provides a **singular venue** to advance wireless system and spectrum sharing technologies, educate and influence decision makers at all levels of the wireless value chain, and drive changes that will address emerging wireless communications requirements through the enhanced value, reduced total life cost of ownership and timely delivery of standardized families of products, technologies, and services.

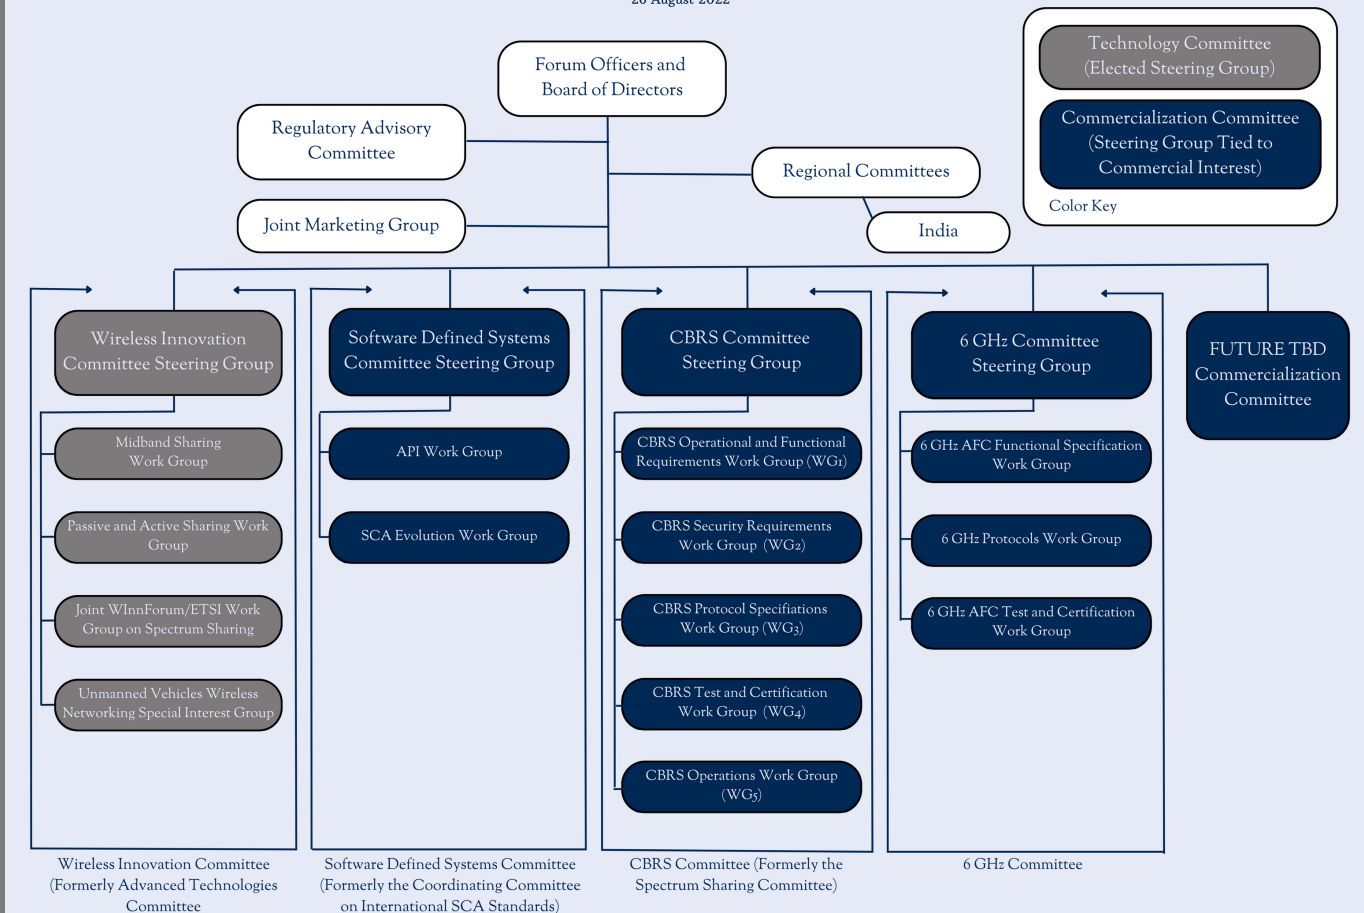

As a member you can:

- Initiate and lead market focused work groups, task groups or special interest groups.
- Leverage the Forum's proven development process and IPR policy and its reputation as a "honest broker" in presenting technology,
- Collaborate with other member representatives from leading organizations across multiple market segments and at all levels of the wireless value chain.
- Leverage the Forum's flexible membership model and its partnerships, US and European conferences, webinars and web presence

Organizational Structure for The Wireless Innovation Forum

26 August 2022

Committees

Wireless Innovation Committee

- About: <https://www.wirelessinnovation.org/advanced-technologies-committee>

6 GHz Committee

- About: <https://6ghz.wirelessinnovation.org/>
- Standards Library: <https://6ghz.wirelessinnovation.org/work-group-products>

CBRS Committee

- About: <https://cbrs.wirelessinnovation.org/>
- Release 1/Baseline standards: <https://cbrs.wirelessinnovation.org/release-1-of-the-baseline-standard-specifications>
- Release 2/Enhancements to Baseline Standards: <https://cbrs.wirelessinnovation.org/enhancements-to-baseline-specifications>

Software Defined Systems Committee

- About: <https://sds.wirelessinnovation.org/>
- Standards Library: <https://sds.wirelessinnovation.org/work-group-products>

To contribute to any of the committees listed above, or if you have an advanced wireless problem that you need solved, join us! Contact Lee Pucker at Lee.Pucker@WirelessInnovation.org

Standards Library

Visit https://www.wirelessinnovation.org/Forum_Work_Products for Forum specifications, reports and recommendations.

Annual Dues Structure

Please note that there is one vote per organization in balloting, regardless of membership level and number of member representatives.

- \$9500 - Large commercial companies with revenues greater than \$500 million
- \$5500 - Medium commercial companies with revenues greater than \$50 million, but less than \$500 million
- \$2600 - Small commercial companies with revenues less than \$50 million
- \$2550 - Government and non-profit organizations
- \$1500 - Academic Institutions
